## M1673 Information sheet

## **Dimensions (without fittings):**

## **Specification:**

| Port Size (Ports 1,2,3):      | 1/8" BSP (G1/8)               |            |
|-------------------------------|-------------------------------|------------|
| Port Size (Port 12):          | 4 mm o/d push-in tube fitting |            |
| Actuation Pressure (port 12): | 5 – 10bar                     |            |
| Working pressure:             | -1 to +14 bar                 |            |
| Leak tightness:               | < 0.01 cc/m                   |            |
| Flow rate coefficients:       | Ports 1-2                     | Ports 2-3  |
|                               | Qn = 115                      | Qn = 45    |
|                               | Cv = 0.092                    | Cv = 0.036 |
|                               | Kv = 0.107                    | Kv = 0.042 |

Furness Controls has a UKAS accredited laboratory which offers pressure calibration from 0 to 40 kPa and flow calibration from 0.1 ml/min to 2000 litres/min
